

NOTICE: Easter Extravaganza Cancelled • Note to Recreation Class Participants

Given the directives issued this afternoon by Governor DeWine, especially prohibiting gatherings of 100 or more persons, Miami Township's Easter Extravaganza that was scheduled for April 4th is cancelled. Regarding small-group classes and activities at the Civic Center, those activities are still taking place as scheduled. However, this is a fluid situation with new information and directives being received hourly. We strongly encourage participants to use their own, best judgement on rather or not to participate in any classes that remain scheduled. We also ask that visitors follow the guidelines that have been distributed by health organizations in regards to best health practices.

Miami Township operates some activities at local school facilities, including men's basketball and water aerobics. We are in contact with those facilities to determine if those off-site activities will need to be cancelled and we will update the information accordingly. Thank you for your understanding and civility.
