Steady Retail, Commercial and Investment Value

With all of 2020's incredible challenges, we have still seen positive trends in residential, commercial and investment value in Miami Township. In those areas, 2020 has put on full display the resilience of our markets and the attractiveness of our community.

The total investment value for 2020 increased from just under \$67 million in 2019 to over \$102 million. Single family home starts increased from 121 in 2019 to 221. That is the most number of single family home starts the Township has seen in close to 15 years. That not only speaks to how well the local economy is doing, but to the school districts serving our community and the services the Township is able to provide. The figures also include at least nine months of doing business during a declared pandemic. Two of the economic benchmarks the Township uses to evaluate itself are median household income and median home value. Miami Township (\$90,745) is about 30% higher than the county's median household income (\$64,155) and approximately 40% higher in home value (\$230,083) - this is a 4.5% increase from 2019. The Township is also seeing, for the first time, a diversity of housing stock be both demanded and invested in, in Miami Township. Redwood just completed its second upscale apartment subdivision within the Township - located off State Route 131 and is now open to new residents. Fisher Homes is set to break ground on a 285 unit condominium community. With empty nesters looking to downsize and homeowners who don't necessarily favor yard work looking to locate in highly desirable subdivisions that condominium development, fills a brand new housing choice that we don't currently have. Also, after 20 years under development, Miami Trails is set to begin it's final phase. The Township enjoys a wide range in our housing market with new homes ranging from \$350,000-\$800,000 in several of our newer neighborhoods.

Businesses are also investing in Miami Township. In the Wards Corner corridor, Satco, who does research, development and production of various types of cargo containers used in the air traffic trade, was recently issued a permit for a \$1 million controlled burn facility. The location will be used as R&D for metal containers and ultimately have 80-100 employees.

Tripack is relocating its headquarters and manufacturing facility to US Route 50 here in the Township. Over 80 jobs will be generated in the 62,000 square foot facility. Tripack is in growth mode because they do research, development, and fabricate machines that do shrink wrap and the food and beverage industry is at an all time high in terms of consumer choice. They are currently in the process of outfitting the building to fit their needs.

Miamiville Trailyard is set to open this spring at SR 126 and Wards Corner Road. It is a unique restaurant at a great location right on the Little Miami Scenic Trail. They will have a wide variety of appetizers, salads, gourmet burgers, wings, chicken entrees, and a selection of vegetarian options. It is a beautiful building and a great investment for us in Miamiville.

We take great pride in our residents, businesses and community and appreciate investment in Miami Township. There are so many things that make Miami Township a great place to call home and why it is so easy to be *Miami Township Proud!*

IS YOUR BUSINESS MIAMI TOWNSHIP PROUD?

2021 Spring Litter Clean-up

The 2021 Spring Litter Clean-up will be a Do-It-Yourself (DIY) litter clean-up with activities scheduled for the month of June. Volunteers can practice social distancing to help spruce up areas in their neighborhood while enjoying the outdoors. Volunteer safety is the top priority. All volunteers will be provided with clean-up materials for their DIY activities, including protective gloves, trash bags and litter grabbers.

Volunteers, students looking for service hours for National Honor Society, Girl and Boy Scouts, or anyone who wants to help keep Miami Township beautiful can contact Administrator Jeff Wright for supplies and a list of areas to perform litter cleanup.

Thank you to the volunteers that come back year after year to protect our local natural resources! For additional information on the Spring Litter Clean-up, visit SpringLitterCleanup.com.

Doing What it Takes to Make It Happen

A large part of Miami Township Recreation's Summer Camp success is due to Program Coordinator Brenda Wilson. It's a huge undertaking to organize campers, coordinate with camp leader schedules, and find the perfect mix of activities. Due to COVID, this was especially true last summer and planning for this year. While many communities and organizations cancel camps, Miami Township Recreation department goes above and beyond to provide as much of a normal experience as possible, so children in our community can enjoy enriching activities & engage in good old summer fun.

"I appreciate the fact that Brenda looks at things from every angle and is willing to do whatever is needed to make it happen" said DARE Officer, Skip Rasfeld. "I feel like she always listens to my suggestions and is generally willing to implement them. I push the envelope sometimes, because I want to give the kids the best camp that I can and I want it to be unlike anything they can get anywhere else." DARE camps generally sell out in just two weeks. Every year, the process is refined and camps keep getting better - Ms. Wilson is a big part of helping make it happen. Thank you, Brenda Wilson for everything you do to make summers fun for our kids!

Introducing CodeRED – A Community Notification System

Assistant Chief Dan Mack

A child has wandered out of an open backyard gate and is missing. A tornado has touched down and is heading directly for Miami Township. A crash or a water main break has closed a principal roadway and will affect the morning commute for hundreds of residents. Rapid and early notification when an emergency occurs can make a difference, whether it involves saving a life or simply avoiding frustrations and delays. But how do you get these

notifications to the people who need them the most without interrupting the busy lives of those who are not affected? The answer is: a “Community Notification System”.

Miami Township is excited to announce that it has purchased such a system named **CodeRED** to keep our residents and businesses informed about critical information that could affect them. CodeRED is a powerful tool that provides real-time emergency notifications and general alerts to just the people who are most likely affected or who may be able to make a difference in certain emergency situations. A key to making the system work is its ability to make “targeted notifications” to certain geographical areas (such as homes on specific streets, specific neighborhoods, or the entire Township), or to specific groups. Notifications are made via text message, email, and/or voice message. YOU decide which method(s) work best for being notified.

Another great feature we included in our system is emergency weather alerts. Outdoor weather sirens are an important public safety tool, but they do not work if you can’t hear them, and they don’t tell the nature of the problem. CodeRED incorporates a powerful tool into its arsenal that provides immediate severe weather alerts to those most likely to be impacted by an impending danger. This component does not require intervention by a human, but rather, is automatically generated when the National Weather Service issues a warning for a specific area. It is like having a weather radio with you at all times!

But here is where we need YOUR help. For the system to provide the greatest benefit, the residents and businesses of Miami Township must also take some simple steps to receive the alerts.

WHAT YOU CAN DO

The system is already populated with over 16,000 verified phone numbers of Township residents. In the very near future, these numbers will be receiving a phone call with a brief message explaining how to enter or confirm contact information in the CodeRED system. The call will originate from 866-419-5000. Please **DO NOT HANG UP** when you receive the call. If you do not receive the call, or if you want to take advantage of the

system right away, please note the following options for enrolling in the system:

- Use the QR code shown at right to go directly to the enrollment web site.
- Text “**MIAMI**” (not case sensitive) to **99411** to be taken to the enrollment form on your mobile phone.
- Access the enrollment web site via the Miami Township web site. Go to **MiamiTwpOH.gov** and click on the CodeRED link on the homepage. You will be taken to a page that provides instructions and the link to the enrollment form.

Please note that the phone numbers of everyone in the household can be added into the system. An emergency alert is of little value if the one receiving it is not in the impacted area at the time of the alert, or if the ones needing it most do not receive it. We also ask that everyone encourage their friends, neighbors, and members of their homeowner’s associations to sign up. The more people we have enrolled in the system, the more people there are who will benefit from it.

And to put your mind at ease, personal data such as phone numbers and emails are kept confidential, not shared with other companies, and not used for telemarketing purposes. Only we as the CodeRED system administrators can see it.

ADDITIONAL BENEFITS

CodeRED is more than just emergency alerts. We will also be using the system to provide pertinent notifications that affect your personal safety or that can help you avoid difficulties that could affect your day. These include (but are not limited to):

- Safety / crime alerts for specific neighborhoods
- Scheduled road closure alerts
- Hydrant testing alerts to avoid brown water that may affect laundry outcome
- Scheduled “No Parking” restrictions and snow event declarations

It is not Miami Township’s intent to inundate its residents with unneeded calls. We do not foresee residents receiving very many notifications each year. But when they are received, you can be certain they likely affect you and your family, and that they are important. We would like to thank all Miami Township residents in advance for participating in this program designed to keep Miami Township safe and secure.

This past year has been like no other for all of us. The good news is there is a light at the end of the tunnel.

I am proud that during this crazy time our department came together and worked hard to offer the community programs with reduced capacities and the implementation of healthy protocols. They all went well, and we had great feedback from participants. We are moving forward in the same way for spring and summer programs and activities.

Our Summer Camp programs are on our website and we are taking registrations. We will be operating them in the same way: with reduced camp participants and healthy protocols. This year the children are veterans of this behavior and there will be less stress on everyone. We have over 50 camps geared for Preschool to School-Agers with lots of different themes and activities in between. Due to the reduced camp sizes I encourage you to sign up as early as possible. Our DARE and Kindergarten Safety camps are filling up fast!

Adult Education and Sports & Wellness have lots of interesting topics to explore. I encourage you to experience something new and make connections. We are starting our third year of Pickleball at Community Park. Great new instructional classes are being offered. Topics include Doubles Strategy 101 and Serve and Shot Drops 101. Our Community Garden is entering its 11th year on the grounds of the Civic Center. We have plots available at a very low cost, so if interested stop by the Recreation Dept. and learn more about the benefits of gardening.

We are planning our Summer Concert Series with three concert dates featuring local talent. These will be held at the Community Park Performance Pavilion. There will be plenty of room to spread out on the lawn as well as food and beverages for purchase.

I just saw this quote in a magazine I was reading and thought it was applicable to our current situation. "No matter how chaotic it is, wildflowers will still spring up in the middle of nowhere" Happy Spring!

A Charitable Organization

Sergeant Dan Tobias

Having that designation for your association is harder to make a reality than one thinks. The Miami Township Police Association has become a 501(c)(3) charitable organization. It has been almost a 10-year process. The Miami Township Police Association was established in 2008 with the goal to work with the public

and Township residents to connect the citizens and police department while providing a way for officers to assist those in need. A deduction of each officer's paycheck along with donations made from the public and businesses have made events like Shop with a Cop and scholarships for police Explorers a reality. While Shop with a Cop is one of the largest donations of the year, some other organizations that the Miami Township Police Association provided assistance to in 2020 include: Reset 360, Feed our Flock, Adopt-A-Basket, and a holiday gift card distribution, along with many others.

What is a 501(c)(3) organization you may be asking? The basic Internal Revenue Service description of a 501(c)(3) is a federal tax-exempt nonprofit organization. This means that all assets are permanently dedicated to a charitable purpose. The largest benefit of a 501(c)(3) organization and the part that you as a citizen should be excited about is any donation made to a 501(c)(3) organization from a donor

(you) will now be tax deductible. All donations made to the Miami Township Police Association since April of 2020 are now tax deductible. To achieve this status took years of preparation, an 80-page application, records' retention for six plus years and countless hours committed by the Miami Township Police Association President Officer Skip Rasfeld.

Having this status is something the Miami Township Police Association is grateful for and is not taking lightly. There are strict rules and compliance requirements in place that a 501(c)(3) organization must follow.

If you would like to contribute to the Miami Township Police Association, there are numerous ways in which you can donate. The first is to stop by the Miami Township Police Department at 5900 McPicken Drive, Miami Township, Ohio 45150 and speak to the clerks at the front window. You can also mail any donations to the same address with ATTN: Miami Township Police Association on the envelope. Please make all checks payable to Miami Township Police Association. The final way in which you can donate is through the Venmo application, please search under person (not business) for the handle @MiamiTownship-PoliceAssoc. All communication will be private between the donor and the association. The association is now required to provide you with a receipt. If you donate, please expect a receipt of some kind.

Thank you for your continued support of the Miami Township Police Department and Miami Township Police Association and here's to a happy and healthy 2021!

Lieutenant Hirsch Completes CLEE Training

Lieutenant Robert Hirsch recently completed Certified Law Enforcement Executive Training.

The Certified Law Enforcement Executive (CLEE) is a formal program of leadership training presented by the Ohio Law Enforcement Foundation for police officers (sergeant and higher rank) who are at the executive level or who wish to progress to executive levels in their agency. The curriculum includes eight content modules identified by successful law enforcement executives as essential for meeting today's demands and tomorrow's needs in law enforcement management and leadership. The curriculum is dynamic and continually evaluated and changed to meet emerging needs and issues.

Hirsch has been with Miami Township since 2007. Prior to employment with the Police Department, he served from 2001-2006 in the United States Army as a Military Police Canine Handler. He achieved the rank of sergeant and spent the majority of his enlistment escorting heads of state, elected officials, and foreign dignitaries around the world with his explosive detection canine.

Lieutenant Hirsch, his wife, Amy, and their three children, Alyssa, Ashley, and Adam are also proud Miami Township residents. Congratulations Rob - we look forward to a long and successful career with the Miami Township Police!

Remember HOA Rules When Starting New Projects

Jeff Uckotter
Township Planner

As the snowpack melts from the recent February, 2021 snowstorms (it is melting as this is being written), and as Spring comes along, Miami Township residents and homeowners may turn their attention to residential improvements which include things like decks, pools, fences, sheds and other additions. From 2019 to 2020, there was over a 22% increase in zoning certificates issued.

If you intend to improve your property in 2021, be sure to check with the Community Development Department first related to how to apply for a required zoning certificate - (513) 248-3721 or visit MiamiTwpoh.gov/zoning. Also, please remember that HOA rules, as well as private easements and utility easements may be applicable to your property and could affect your project. Issuance of a zoning certificate does not supersede homeowner regulations or easements which may be more restrictive.

When undertaking a new project, in addition to the zoning and building rules, homeowners are encouraged to be mindful of homeowner's association regulations and easements that may impact the project.

The Township looks forward to working with you in 2021!

MIAMIVILLE TRAILYARD Getting Ready to Open

A pandemic achievement, the new Miami Trailyard restaurant in Miamiville advised it is hoping to open by St. Patrick's day. Staff has recently had several conversations with the development team on last minute details. This is going to be a go to place in Miamiville, located right on the bike trail. The bulk of the construction was completed through the ongoing pandemic, with the project even being shut down for several weeks. This is an amazing achievement and a wonderful addition to the Miamiville area. We wish the Miamiville Trailyard the best of success!

2021 Resurfacing Program

John Musselman
 Service Director

This year Miami Township will be contracting with the John R Jurgenson Company for a record setting resurfacing program. With the additional funds the road levy (passed in 2018) provides, along with Motor Vehicle License Taxes, Gasoline Taxes, and our

Permissive MVR Tax, we will be resurfacing **15 miles of road** this year, replacing over **1 mile of concrete** curb and gutter, repairing catch basins and revamping handicap accessible curb ramps at intersections. This resurfacing portion of this project will be performed this summer when school is not in session to avoid conflicts with school buses. We are allowing the contractor to begin concrete work as soon as temperature and weather permits.

For the complete 2021 Road Resurfacing street list, please visit MiamiTwpOH.gov and click on the **Service** tab.

Additional 2021 Projects

Sugar Camp Road Slope Stabilization Project

The Township is currently working to obtain easements for a two-part slope stabilization project on Sugar Camp Road. We are experiencing some movement of the land adjacent to the roadway and will be installing gabion baskets to fortify and stabilize the slope which will protect the roadway from movement or damage to the pavement.

Riverview and Paxton Ramsey Park Resurfacing

We currently have a project out to bid to resurface the parking lot and walking trail at Paxton Ramsey Park and the lower parking areas at Riverview Park. There will likely be some interruption in availability of the parks while this work is being performed but we will use our social media presence to notify our residents of these interruptions.

Miami Meadows Dog Park Fencing Project

No, we are not teaching dogs the sport of fencing, but due to a successful grant application by our Township Administrator Jeff Wright, we will be able to bring some of your Clermont County Parks Levy tax money back to our Township to pay for 75% of the cost of replacing the worn and aging chain link fence around the dog park with a new 3

Rail Kentucky Board Fence that will have a heavy duty wire fence liner to help keep your precious pooch contained.
